No. (2981)-95-4—*San., dated* 5*th October* 1904.

The following Notification No. 1309, dated the 12th September 1904, issued by the Home Department *re* the pilgrimage to the Hejaz during the season of 1904, is republished for general information :—

By the Home Department Notification No. 1485, dated the 30th September 1903, the Governor General in Council under the powers conferred by Section 2, Sub-Section (I) of the Epidemic Diseases Act, 1897 (III of 1897), directed that pilgrimage to the Hejaz during the season of 1904 might be permitted to any resident of India, subject to certain precautions, from the ports of Bombay in the Presidency of Bombay and of Chittagong in Bengal.

2. One of the precautions adopted during the pilgrim season of 1904 was the collection of all intending pilgrims at a central observation camp at or near the port of embarkation where they were detained for at least ten days, and where their wearing apparel, bedding, etc., were disinfected previous to their embarkation. Experience has shown that the cost of this arrangement has been great and the inconvenience to the pilgrims the subject of much complaint. With the concurrence of His Majesty's Government, it has accordingly been decided that during the ensuing pilgrim season, pilgrims shall be permitted to proceed to the Hejaz after five instead of ten days' observation at the central camp and after satisfactory medical inspection and disinfection. The Hej will accordingly be open during the ensuing pilgrim season to any resident in India subject to the Regulations hereinafter stated.

3. The orders contained in the Home Department Notification No. 1485, dated the 30th September 1903, are hereby cancelled.

4. The Governor General in Council is pleased to direct—

(1) that no person shall be permitted to embark with the object of making a pilgrimage to Mecca except at the port of Bombay in the Presidency of Bombay.

(2) that no person shall be permitted to embark for such purpose at such port unless he has been kept under observation in a place appointed for the purpose at or near the port of embarkation until such time as the Medical Officer in charge shall be satisfied that all risk of such person conveying the infection of plague has completely abated ;

(3) that no passage tickets for the Hejaz shall be sold except at the place appointed for the detention of intending pilgrims under observation.

5. Although they have decided that, subject to the foregoing precautions, the pilgrimage to the Hejaz may be permitted, the Government of India think it necessary to repeat the warning given last year, that intending pilgrims will be well advised in deferring the fulfilment of their purpose until another season, in view specially of the stringent quarantine rules imposed by the Turkish Government and of the inconvenience and harassment to which it is likely that they will be subjected on arriving in Arabia.

The following Rules for the regulation of water-supply and for house-connections from the Water Works of the Chikmagalur Town are published for general information :—

I. The supply of water from the Chikmagalur Water Works being intended exclusively for *bona fide* domestic purposes, the water drawn therefrom, whether from public fountains and taps or from private house-connections, shall not be used for any other purposes whatsoever.

II. A supply of water for domestic purposes shall not include a supply thereof for any trade, manufacture or business or for fountains or for ornamental or mechanical purposes, or for watering gardens or roads.

III. Water which has been used for washing, bathing or other domestic purposes may be collected and used for gardening or other non-domestic purposes.

IV. The water may, however, be used for purposes prohibited with the special permission of the Municipal Board.

V. In the case of house-connections, the water drawn therefrom shall be used exclusively by the occupants of the house possessing the connections.

VI. Until further orders, private connections to houses will be limited to houses whose value is Rs. 800 and upwards and to localities where the capacity and pressure of the public water mains permit of such connections being made, without detriment to the street service. On the latter point the opinion of the Executive Engineer shall be final.

VII. All pipes, taps and other works required for a house-connection, shall be of such dimensions, character and material as the Municipality may approve, the pipe not exceeding ½ an inch in diameter and they shall always be under the control of the Municipality and shall in no case be interfered with by any others. They shall be supplied, renewed or repaired by the Municipality.

VIII. The cost of all pipes, taps and works required for a house-connection shall be borne by the householder applying for or desiring the connection, who shall pay in advance the estimated cost. The whole cost should be fully paid for before the house-connection is permitted to be used.

IX. The Municipal Board shall determine the size of each house-connection with due regard to the capacity and pressure of the public water mains.

X. The house-connection in any case is liable to be stopped or the supply reduced by the Municipality, without assigning any reason. When stoppage is due to exigencies which are previously foreseen, such previous notice as is possible under the circumstances will be given by the Municipality. If the Municipality has reason to believe that wasteful or unauthorized use is made of water drawn from any house-connection, it shall be its duty to stop such connection forthwith under this rule.

XI. Every householder possessing a house-connection shall pay a tax of eight annas per mensem and deposit with the Municipality the amount of such tax for twelve months.

XII. The Government reserves to itself the power, whenever it deems fit, to alter or modify the foregoing rules or to abolish altogether the system of house-connections to be established hereunder.

XIII. Every house-connection shall be regarded as established, subject to the conditions and regulations contained in the rules as above, or as they may be altered or modified for the time being by order of Government.

XIV. No water-cart shall be allowed to take water from a public fountain, except at such places as may be specially set apart by the Municipality for that purpose. The Municipality shall cause notice boards to be put up at particular fountains, indicating that water-carts are allowed to take water therefrom.

XV. In consideration of the difficulties peculiar to the supply and distribution of water at Chikmagalur, the erection of any fountains or taps, public or private, and the opening of any house-connection for drawing water from the Chikmagalur Water Works be sanctioned by the Municipal Board at a regular meeting of its members.
